The Spaw's the limit

The SpawGlass team welcomed clients to a night of Austin-style appreciation, music and all!

"We get the work from our owners, but the subs are the ones who help us to do a good job, and we appreciate them," says **Pat Williams**, president, Austin region, **SpawGlass Contractors**.

Formerly known as Swamp Bash, this year's appreciation event was dubbed SpawGlass City Limits. Held on Oct. 1, the eve of Austin City Limits (ACL), **Casey Cowman**, marketing manager, says that pushing the annual event to October instead of its usual summer date made for comfortable mingling.

Guests experienced music from bands scheduled to play at ACL, prizes, take-home goodies, "VIP" passes and a lot of appreciation. -va

Running into industry counterparts is just part of the fun for Becky Ruhm, Keith Mills, Millard Drywall & Acoustical Construction, and Joe "Coach" Padilla, Gill Reprographics

Stephen Levy, Architects ClaytonLevyLittle, far left, and the KONE Inc. team enjoy a cold beverage.

The folks with Western States Fire Protection and Velocity Credit Union listened to live music from bands that were scheduled to perform at Austin City Limits the very next day.

The RSC Equipment Rental team don their "Very Important People" passes.
