SpawGlass completes McKenna Village at Sundance Continuing Healthcare Facility project for McKenna Systems

New Braunfels, Texas – SpawGlass recently completed the McKenna Village at Sundance Continuing Healthcare Facility project for McKenna Systems.

The project features two new facilities: the 71-room independent living building and the 59-room assisted living building, totaling over 186,000 square feet. Features of the facility include a lounge area with a large fireplace, piano, billiards and wet bar; private and common dining rooms; library; sunrooms; exercise rooms; and meeting rooms. Other common areas include a beauty salon, general store and physical therapy area. The exterior offers two balconies with comfortable seating, courtyards and water features. Construction began on January 24, 2008 and was completed on June 1, 2009. The architect for the project was Graeber, Simmons & Cowan, Inc.

The McKenna Village at Sundance Continuing Healthcare Facility project was awarded the Associated Builders and Contractors (ABC) Central Texas Chapter Excellence in Construction Award, Category: Healthcare \$10-\$25 Million and will be honored at the ABC Excellence in Construction Awards Banquet on October 19, 2009.

SpawGlass team members for the McKenna Village at Sundance Continuing Healthcare Facility project included Project Manager Michael Raley and Superintendent Josh Wise.

SpawGlass, a Texas-based general contractor, construction manager and design/builder, was founded in 1953 by Louis Spaw and Frank Glass with a commitment to client satisfaction and service. Today the company has more than 550 employees statewide and is 100 percent employee owned, with ownership available to all employees. Operating in the Austin area since 1978, SpawGlass has regional offices in Austin, Houston, San Antonio and South Texas.
